

WD01 ( JULY 2016)

WASTE MANAGEMENT (FOR NON WASTE MANAGEMENT CONTRACTORS WORKING ONSITE)

- 1) All obligations imposed on the parties to this contract by National and International laws are considered as being an integral part of this contract.
- 2) Only contractors that are registered with the Environment Agency (or the relevant authority for the devolved administrations as may be appropriate) as a certified waste carrier are permitted to remove waste from any of Outokumpu's sites.
- 3) Any non-waste management contractor that regularly transports waste that they have produced themselves while going about their normal business activities must be registered with the Environment Agency (or the relevant authority for the devolved administrations as may be appropriate) as a waste carrier.
- 4) The management of all waste materials arising from this contract is the responsibility of the contractor. It is the responsibility of the contractor to ensure that all waste that may foreseeably arise from this contract has been communicated with the Outokumpu job owner or buyer and the arrangements for how the waste will be managed must be detailed in the contract safety method statement or other approved documented methods of working.
- 5) Outokumpu reserves the right to retain ownership of any waste material generated on site. Where this is the case, this will be communicated with the contractor and specified in writing.
