Revision Date 20-Nov-2017

Revision Number 1

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

GHS product identifier

Product Name

Chromium-Nickel Alloyed Stainless Steel grades

Other means of identification

Synonyms301, 302, 303, 304, 305, 308, 309, 310, 314, 321, 347, 415, F6NM, UNS S41003, 1.4306,
153MA®, 253MA® and Outokumpu 2304. This includes all listed grades with letter prefixes
and suffixes as well as PRODEC® suffix, with the exception of 303Cu, 304Cu, UNS
S30430, 310MoLN.

Recommended use of the chemical and restrictions on use

 Recommended Use
 Solid stainless steel products, various forms, and uses

 Uses advised against
 No information available

Supplier's details

Supplier Address Outokumpu Stainless Bar, LLC 3043 Crenshaw Parkway Richburg, SC 29729 TEL: 1-888-458-4600; 1-803-789-5383

Outokumpu Stainless USA, LLC One Steel Drive Calvert, AL 36513 TEL: 1-251-829-3600

Outokumpu Mexinox S.A de C.V AV. Industrias No. 4100 Zona Industrial 1a. Sección 78395, San Luis Potosí, México TEL: +52+444+826-5100

Emergency telephone number

Emergency Telephone 251-829-3600 Number

2. HAZARDS IDENTIFICATION

Classification

This chemical is not considered hazardous according to the OSHA Hazard Communication Standard 2012 (29 CFR 1910.1200).

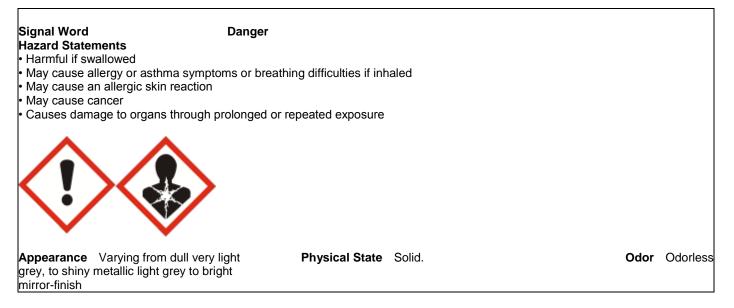

Solid metallic products are generally classified as "articles" and do not constitute hazardous materials in solid form. However, downstream use of the article could result in some hazardous elements contained in these products to be emitted under certain processing conditions such as but not limited to: burning, melting, cutting, sawing, brazing, grinding, machining, milling, and welding. The classification given below pertains to these alloys when used during these processes.

Acute Oral Toxicity	Category 4
Respiratory Sensitization	Category 1

Skin Sensitization	Category 1
Carcinogenicity	Category 1B
Specific Target Organ Toxicity (Repeated Exposure)	Category 1

GHS Label elements, including precautionary statements

Emergency Overview

Precautionary Statements

Prevention

- · Wash face, hands and any exposed skin thoroughly after handling
- Do not eat, drink or smoke when using this product
- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Use personal protective equipment as required
- · In case of inadequate ventilation wear respiratory protection
- · Contaminated work clothing should not be allowed out of the workplace
- Do not breathe dust/fume/gas/mist/vapors/spray

General Advice

• IF exposed or concerned: Get medical attention/advice

Skin

- · IF ON SKIN: Wash with plenty of soap and water
- · If skin irritation or rash occurs: Get medical advice/attention
- · Wash contaminated clothing before reuse

Inhalation

- IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing
- If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician

Ingestion

- IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
- Rinse mouth

Storage

• Store in accordance with local/regional/national regulations.

Disposal

• Dispose of in accordance with local/regional/national regulations.

Hazard Not Otherwise Classified (HNOC)

Not applicable

Other information

No information available.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms

301, 302, 303, 304, 305, 308, 309, 310, 314, 321, 347, 415, F6NM, UNS S41003, 1.4306, 153MA®, 253MA® and Outokumpu 2304. This includes all listed grades with letter prefixes and suffixes as well as PRODEC® suffix, with the exception of 303Cu, 304Cu, UNS S30430, 310MoLN.

Chemical Name	CAS-No	Weight %	Trade secret
Iron	7439-89-6	Balance	*
Nickel	7440-02-0	1.5-37	*
Chromium	7440-47-3	11.5-26	*
Silicon	7440-21-3	0-2	*
Manganese	7439-96-5	0-2	*
Molybdenum	7439-98-7	0-1	*
Titanium	7440-32-6	0-0.7	*
Copper	7440-50-8	0-1.9	*
Cobalt	7440-48-4	0-0.6	*

*The exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST AID MEASURES

Description of necessary first-aid measures

Beneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel does not present an inhalation, absorption, or ingeneral Advice In its solid form stainless steel Advice Internation Internatio			
Eye Contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.		
Skin Contact	Wash off immediately with soap and plenty of water. In the case of skin irritation or allergic reactions see a physician.		
Inhalation	Move to fresh air. If breathing is difficult, give oxygen. Consult a physician.		
Ingestion	Not an expected route of exposure. If swallowed: Get medical attention.		
Most important symptoms/effects, a	acute and delayed		
Most Important Symptoms/Effects	Coughing and/ or wheezing. Difficulty in breathing. Irritation. May cause allergic skin reaction.		
Indication of immediate medical attention and special treatment needed, if necessary			
Notes to Physician	May cause sensitization by inhalation and skin contact. Treat symptomatically.		
5. FIRE-FIGHTING MEASURES			

Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media None

Specific Hazards Arising from the Chemical

Avoid dust formation. Dust can form an explosive mixture in air. May cause sensitization by inhalation and skin contact.

Explosion Data	
Sensitivity to Mechanical Impact	None.
Sensitivity to Static Discharge	None

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Avoid dust formation. Avoid inhalation of dust. Ensure adequate ventilation. In case of insufficient ventilation wear suitable respiratory equipment. Use personal protective equipment. Avoid contact with skin, eyes and clothing.	
Environmental Precautions		
Environmental Precautions	Not applicable to steel in solid state. Follow applicable federal, state and local regulations	
Methods and materials for containment and cleaning up		
Methods for Containment	Prevent further leakage or spillage if safe to do so. Cover dust spill with plastic sheet or tarp to minimize spreading.	
Methods for Cleaning Up	Take up mechanically and collect in suitable container for disposal. Avoid dust formation. Clean contaminated surface thoroughly.	

7. HANDLING AND STORAGE

Precautions for safe handling

Handling	Handle in accordance with good industrial hygiene and safety practice. Avoid dust formation. Avoid breathing dust. Avoid contact with skin, eyes and clothing. Wear personal protective equipment. Do not eat, drink or smoke when using this product.
Conditions for safe storage, includ	ing any incompatibilities
Storage	Store in accordance with local regulations.
Incompatible Products	May react in contact with strong acids to release gaseous acid decomposition products, e.g. hydrogen, oxides of nitrogen. Use of strong oxidizers (high pH) on stainless steel may cause Cr(VI) compounds to form at ambient temperatures.Decomposition: Fumes generated during welding, brazing, or thermal cutting may contain: chromium compounds, including hexavalent chromium Cr(VI); nickel; manganese; iron; molybdenum; and silicon compounds.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters

Exposure Guidelines

There are no occupational exposure limits for stainless steels. Occupational exposure limits apply to some components resulting from grinding, polishing, abrasive blasting, hot rolling, hot forging, thermal cutting, or welding which may produce stainless steel dust or fumes.

Appropriate engineering controls

Engineering Measures

Ensure adequate ventilation, especially in confined area (i.e. showers, eyewash stations, etc.).

Individual protection measures, such as personal protective equipment

Eye/Face ProtectionWhen processing the metal alloy wear: Tightly fitting safety goggles.Skin and Body ProtectionWhen processing the metal alloy: Wear protective gloves/clothing.Respiratory ProtectionIf exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved
respiratory protection should be worn. Positive-pressure supplied air respirators may be
required for high airborne contaminant concentrations. Respiratory protection must be
provided in accordance with current local regulations.

Hygiene Measures

Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical State	Solid Odorless	Appearance Odor Threshold	Varying from dull very light grey, to shiny metallic light grey to bright mirror-finish No information available

10. STABILITY AND REACTIVITY

Reactivity

No data available. Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

None under normal processing.

Conditions to avoid

Dust formation.

Incompatible materials

May react in contact with strong acids to release gaseous acid decomposition products, e.g. hydrogen, oxides of nitrogen. Use of strong oxidizers (high pH) on stainless steel may cause Cr(VI) compounds to form at ambient temperatures.Decomposition: Fumes generated during welding, brazing, or thermal cutting may contain: chromium compounds, including hexavalent chromium Cr(VI); nickel; manganese; iron; molybdenum; and silicon compounds.

Hazardous decomposition products

None known based on information supplied.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information	In its solid form stainless steel does not present an inhalation, absorption, or ingestion hazard. Grinding, polishing, abrasive blasting, hot rolling, hot forging, thermal cutting, or welding may produce stainless steel dust or fumes containing complex or mixed oxides (spinels) of its components. Metal dust particles may cause eye, skin and/or respiratory system irritation. The below information is for these instances.
Inhalation	May cause irritation of respiratory tract. Inhalation of fumes may cause metal fume fever, which is characterized by flu-like symptoms with metallic taste, fever, chills, cough, weakness, chest pain, muscle pain and increased white blood cell count. May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Eye Contact	Contact with eyes may cause irritation.

OSHA

Х

Х

Skin Contact

Ingestion

Contact with dust can cause mechanical irritation or drying of the skin. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. May cause irritation

Chemical Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Iron	= 984 mg/kg (Rat)	-	-
Nickel	> 9000 mg/kg (Rat)	-	-
