

# Safety Induction for Visitors

Industry Park Krefeld  
Oberschlesienstr. 16  
47807 Krefeld

Health and Safety are our top priority.

The safety of all employees, our own staff and those of external companies as well as our visitors is equally important to us.

By taking part in this training, you too can contribute to an accident-free and safe working environment

After the instruction for visitors, you are allowed to walk on our factory streets and in the office buildings.

However, you are not permitted to take up independent activity in our production areas. Please take the direct route to your contact person. If necessary, have your contact person pick you up here at the gatekeeper.

# Safety Induction for Visitors

## Entering the premises

- Persons under the influence of alcohol or drugs are not allowed to enter the site, nor may you bring or consume alcohol or drugs.

## Entering the production halls

- It is forbidden to enter the production halls without being accompanied by the factory staff! The entrances to the production halls are marked with the sign "Access for unauthorized persons prohibited".

# Safety Induction for Visitors

## Smoking

- There is a strict smoking ban in all office and production rooms. Smoking is only permitted at the designated smoking areas. Smoking is prohibited in the open air area where the sign "Smoking prohibited" is placed.

Raucherpunkt

## Filming and photographing

- Filming and photographing is generally prohibited. However, if you would like to take pictures on the factory premises, you need written permission. Please speak to your contact person.

# Safety Induction for Visitors

## Making phone calls

- In certain areas of the plant, cell phone calls are prohibited. Pay attention to the signs.
- Please find a safe place to use your cell phone and stay there.
- Please do not walk around when using your cell phone.
- It is forbidden to make phone calls while driving a motor vehicle on the factory premises.

# Safety Induction for Visitors

## On site traffic

- A large number of different road users such as pedestrians, cyclists, cars, trucks and special vehicles drive on our plant roads.
- Therefore, as a pedestrian, cyclist or car driver, only move on the footpaths or driveways provided for this purpose.

# Safety Induction for Visitors

## On site traffic

- The road traffic regulations apply on the entire factory premises
- Maximum speed 30km/h. Pay attention to the signs!
- Observe right of way rules and seat belt obligation.
- Level crossings have no barriers. Rail vehicles have right of way.
- Parking only on designated parking areas or according to instructions
- Pay attention to special vehicles in the entire factory area. They have an extended braking distance and limited visibility.

# Safety Induction for Visitors

## General rules of conduct

- Visitors to our plant, as well as our employees and contractors, must absolutely follow all safety signs set up. Your contact person will draw their attention to further safety regulations in individual areas.
